

## How to add MapleTA to Moodle?

- 1- Cogwheel (top right) > turn editing on
- 2- Add activity/resource
- 3- Select « External tool »
- 4- Add

The screenshot shows the Moodle interface with a dialog box open for adding an activity or resource. The dialog box is titled "Add an activity or resource" and contains a list of activities on the left and a description of the "External tool" activity on the right. The "External tool" activity is selected, and a red number "3" is next to it. The "Add" button at the bottom of the dialog box is highlighted with a red number "4".

In the background, the course view is visible. A red arrow labeled "1" points to the cogwheel icon in the top right corner. A red arrow labeled "2" points to the "+ Add an activity or resource" button in the course view.

The "Add an activity or resource" dialog box contains the following information:

**ACTIVITIES**

- Assignment
- Chat
- Choice
- Database
- External tool 3
- Feedback
- Forum
- Glossary
- Group choice
- Lesson
- Questionnaire
- Quiz
- Scheduler
- Turnitin Assignment 2
- Wiki

The "External tool" activity description states: "The external tool activity module enables students to interact with learning resources and activities on other web sites. For example, an external tool could provide access to a new activity type or learning materials from a publisher."

To create an external tool activity, a tool provider which supports LTI (Learning Tools Interoperability) is required. A teacher can create an external tool activity or make use of a tool configured by the site administrator.

External tool activities differ from URL resources in a few ways:

- External tools are context aware i.e. they have access to information about the user who launched the tool, such as institution, course and name
- External tools support reading, updating, and deleting grades associated with the activity instance
- External tool configurations create a trust relationship between your site and the tool provider, allowing secure communication between them

The dialog box has a red "4" next to the "Add" button and a "Cancel" button.

- 5- Add a name
- 6- Select MapleTA
- 7- Save
