

## TCP/IP Labs

Alaeddine El Fawal

2020-2021

# Your Team

## Lecturer:

Prof. Jean-Yves Le Boudec

## Teaching Assistants

Marguerite Delcourt

Dr. Alaeddine El Fawal (head TA)

Ehsan Mohammadpour

Dr. Stéphan Plassart

Hossein Tabatabaee

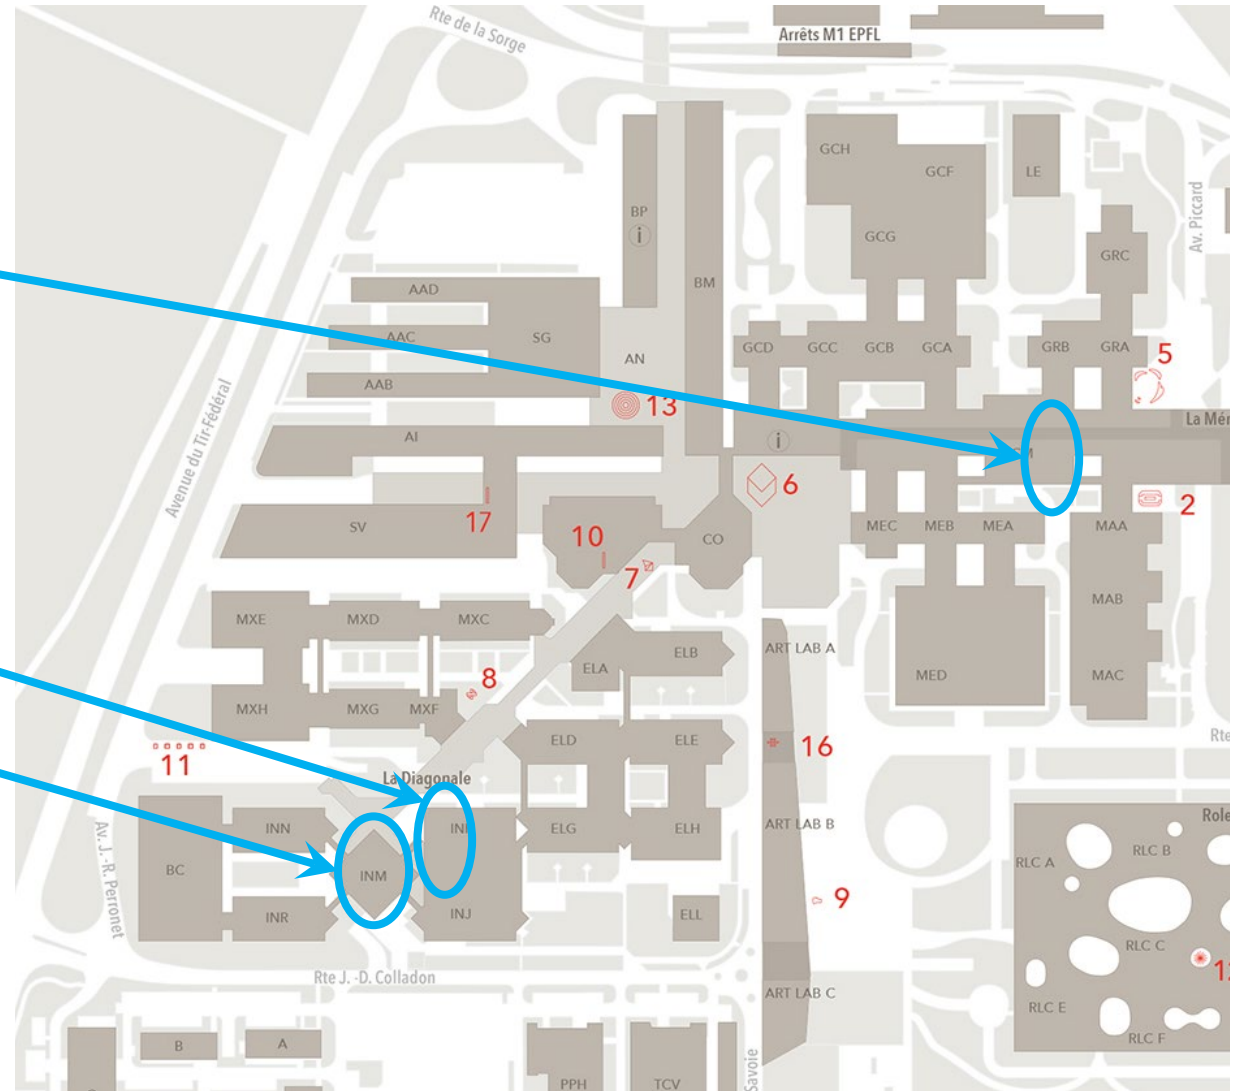

# Organisation

Lecture: every Thursday

- 12:15-14:00 CM2
- **Zoom session in parallel**
- **Playback available shortly after**

Labs: every Friday

- 11:15 – 13:00 INF 1
- 13:15 – 15:00 INM 202
- **Zoom session in parallel**

See Moodle for all details, Zoom IDs and for roadmap.

# Online Quizzes

- One Online Quiz every week
- They are on Moodle
- Mandatory
- Not graded
- Goal: to train you for the labs and for the final exam

You must be up to date with your quizzes in order to submit the lab reports.

# Labs

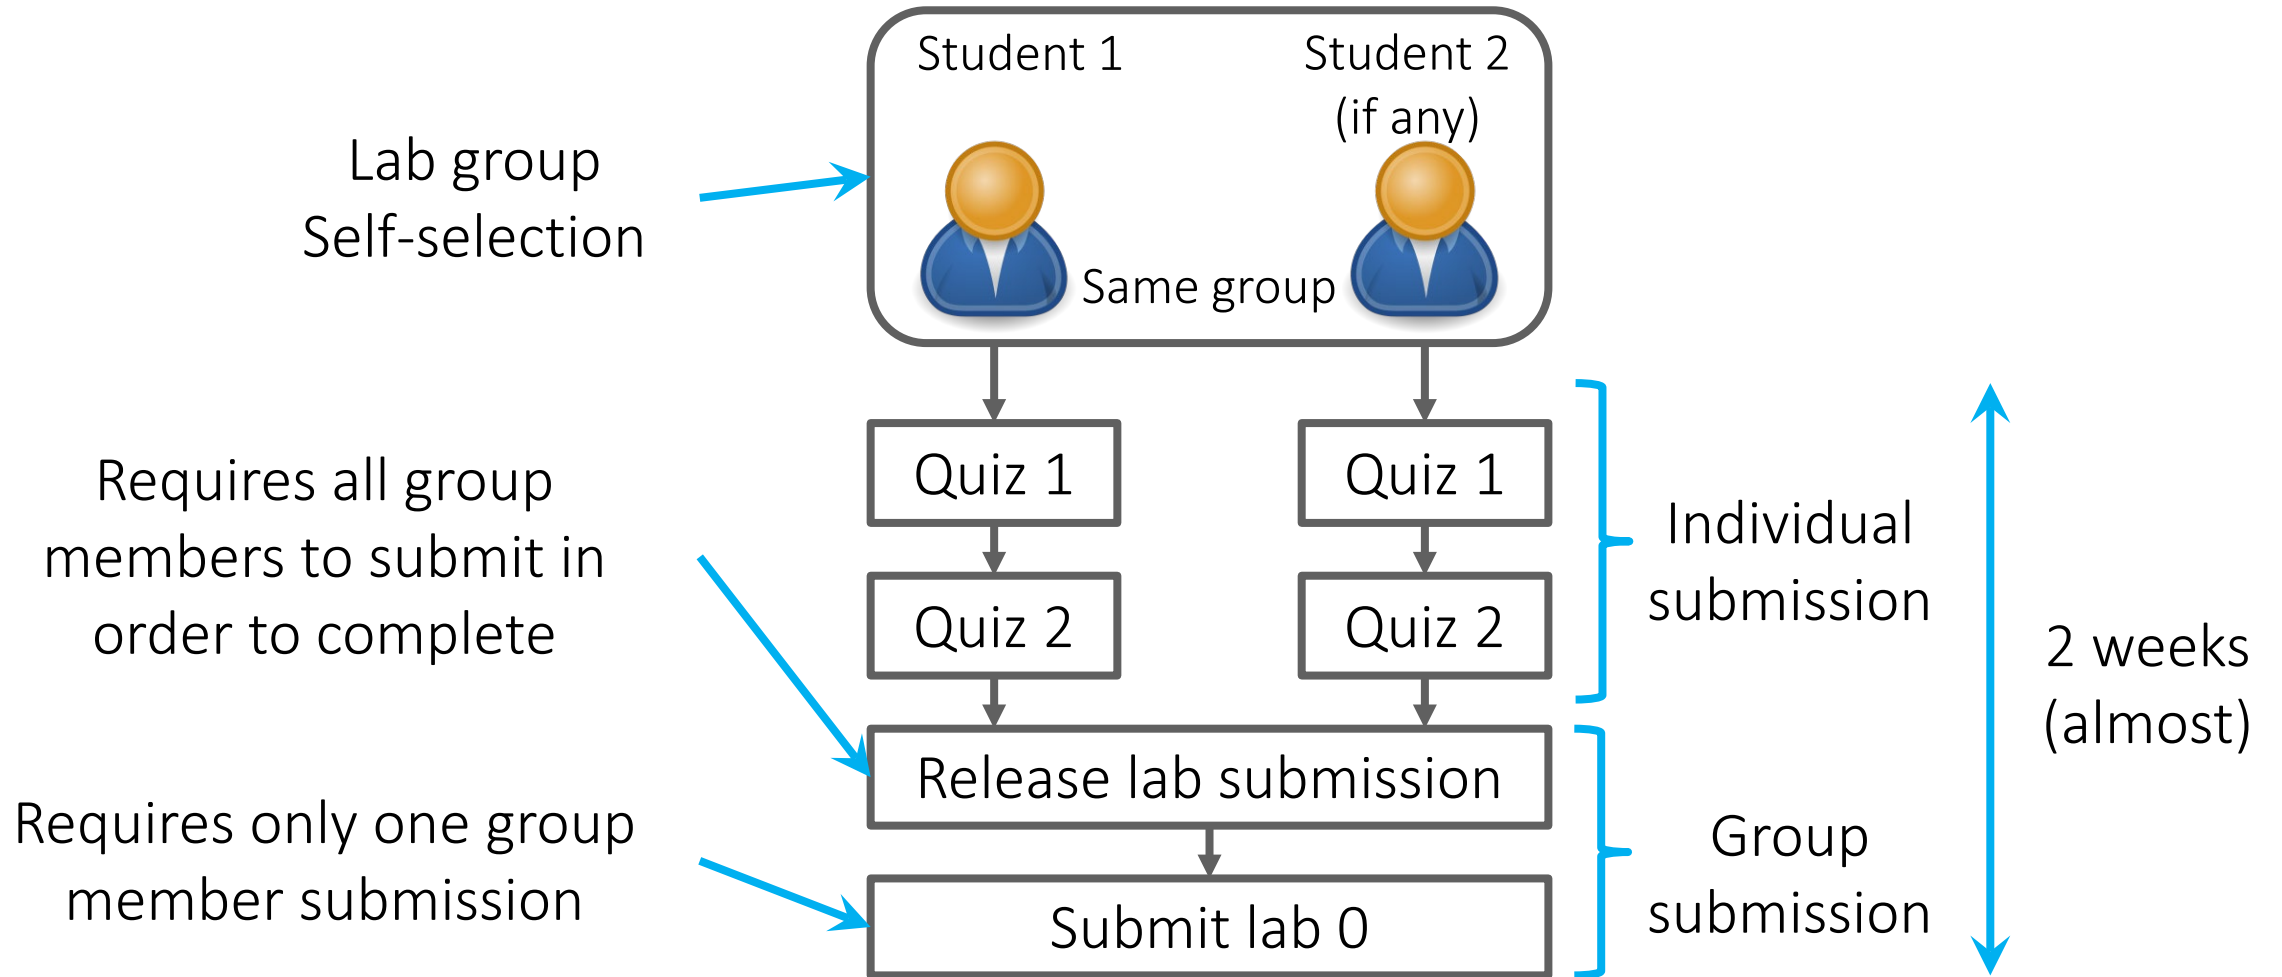

- 7 labs in total: from Lab 0 to Lab 6,
- Mandatory
- Graded,
- you need your own laptop (with 7GB available storage space),
- you will work in groups of 2: only one report per group,
- You are completely safe to work on labs remotely.

# On Moodle

- *Lab group self-selection*
- You will find all info related to lectures and labs,
- Some lab reports consist of the filled-in pdf we provide (Adobe Reader XI supports saving pdf forms, not all readers do!),
- submit the report and the requested code on Moodle in the submit links that will be available in due time.

# Quiz/Lab submission flowchart:

- Online Quizzes are individual: one quiz per student
- Labs are group based, a group can have at most 2 students: only one report per group.

# Lab organization

- You have almost two weeks for each lab (except lab 6).  
Recommendation: start them early, bugs happen all the time and you need to fix them in time!
- **Beware of the set deadline, it is automatic!**
- Some labs have a bonus research exercise, it is NOT mandatory but it is interesting to do them.

# Asking for help

- You can work on the labs whenever you like but TAs are here to help you during the Friday (virtual and physical) lab sessions
- We will do our best to help you but before you ask us, try to have an engineer's approach and search for a solution yourself:  
ask our friend: Google!
- **Do not send us emails** about technical lab issues, post questions on the **Moodle Question & Answer Forum**: we will only answer there and you can answer too! Maybe your question has already been answered there.  
Don't expect us to answer outside of office hours, we will do our best but we are also humans!

Enjoy!
